**WHEREAS:** Pulmonary Fibrosis is a lung disease that occurs when lung tissue becomes damaged and scarred, making it difficult to breathe, particularly when walking and exercising;

**AND WHEREAS:** While there is no cure for pulmonary fibrosis, treatments are available to slow the progress of the disease;

**AND WHEREAS:** The Government of Alberta is committed to providing appropriate supports and services to meet Albertans' health care needs, including those with pulmonary fibrosis;

**AND WHEREAS:** Alberta's government commends the ongoing efforts of the Canadian Pulmonary Fibrosis Foundation and others to support Albertans living with pulmonary fibrosis by providing education, raising awareness, advocating for patients, and supporting research.

**THEREFORE: THE HONOURABLE ADRIANA LAGRANGE IS PROUD TO DECLARE SEPTEMBER 2025 AS PULMONARY FIBROSIS MONTH IN ALBERTA.**

The Honourable Adriana LaGrange  
Minister of Health

**Calgary**

Jyoti Gondek, Mayor

## **PROCLAMATION**

Pulmonary fibrosis (PF) is a progressive lung disease where scarring of the lung tissue makes it difficult to breathe. This scarring also impairs the essential flow of oxygen into the bloodstream, depriving the brain and other vital organs of the oxygen they need to function.

Whereas: Pulmonary fibrosis can be linked to environmental exposures or autoimmune disorders, but for many, the cause remains unknown;

Whereas: While advances in medicine are slowing the progression of symptoms, pulmonary fibrosis remains an incurable disease;

Whereas: Throughout September, events including the annual Clarke Walk for PF will raise awareness, generate funds for research, and give a voice to families affected by this debilitating disease.

On behalf of City Council and Calgarians, I hereby proclaim September 2025 as:

### **PULMONARY FIBROSIS AWARENESS MONTH**
